

THE UNITED STATES PATENT AND TRADEMARK OFFICE

#17
102301

Re: Application of Roman Golicz et al.

Serial No. 08/962,077

Date: October 15, 2001

Filed: September 14, 1998

Examiner: H. Skaggs, Jr.

Applicant: Roman Golicz et al.

Art Unit: 3651

Title: Sheet Feeding Apparatus

Atty. No. 9534

To: Asst. Commissioner for Patents

SUPPLEMENT INFORMATION DISCLOSURE STATEMENT

1. Applicants enclose Form PTO 1449 and copies of the two patents listed therein. They do this for the examiner's convenience because these two patents were relied on the UK examiner in her examination, which is mentioned in the response/amendment which is being sent with this document. These patents were cited in the International Search Report, which applicants believe is part of the present file. A further copy of the search report is nonetheless appended. Thus, this present submittal is for art of which the examiner already had notice already.

2. Applicants enclose a copy of U.S. Pat. No. 5,971,389 issued to the present inventors, which is mentioned in the enclosed substitute specification at page 6. The '389 patent has the same filing date (and thus the same expiration date) as the present application.

3. Applicants enclose a copy of the cover sheet and the claims for U.K. Pat. No. 2,319,767 for the examiner's information. The UK specification is from applicants' PCT application, slightly amended, and is not being sent, in context of all the other papers which are being sent.

Respectfully submitted,
ROMAN GOLICZ et al.
